

REACH Declaration for Substances of Very High Concern

This document relates to the REACH Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006. REACH is the Regulation for **R**egistration, **E**valuation, **A**uthorization and **R**estriction of **C**hemicals. It entered into force on 1st June 2007 to streamline and improve the former legislative framework on chemicals of the European Union (EU). REACH places greater responsibility on industry to manage the risks that chemicals may pose to the health and the environment.

Bel Fuse Inc. has thoroughly reviewed the requirements of the REACH Directive, and the Guidance Documents (http://guidance.echa.europa.eu/guidance_en.htm) released by the European Chemicals Agency to date on implementation of this regulation. Following this review, it was concluded that Bel Fuse Inc. fulfills the role of an Article Supplier (see definition below). As such we have an obligation to report the presence of any Substances of Very High Concern (SVHC) in a concentration above 0.1% (w/w) in articles which we import or distribute in the EU.

As of the date of this document Bel Fuse Inc. has no knowledge of the presence of any Substances of Very High Concern¹ in a concentration above 0.1% (w/w) and substances as described in Annex XVII, §67 Annex XIV, and for the products listed below or in packaging used to protect the products during shipment, except as indicated otherwise. The identification of the Candidate List substance is sufficient to allow safe use of the article throughout the whole life cycle including service life, disassembly and waste/recycling stage.

Definitions:

Article Supplier: An article supplier is a company which produces, imports, or distributes articles and/or places them on the EU market

Article: Article means an object which during production is given a special shape, surface or design which determines its function to a greater degree than does its chemical composition.

ANNEX I

Tab.1 Identification of candidate list substances¹

Number of units	Article name	Article category	SVHC name	SVHC CAS no.	Material/mixture category	Concentration range %
			none			

¹ Candidate List: 233 (last updated: January 17, 2023)

Tab.2 List of products

Bel Part Number	Part Number revision	Article category	SCIP registration no.

Disclaimer

Supplier certifies that it gathered the information it provides in this form concerning REACH restrictive and declarable substances using appropriate methods to ensure its accuracy and that such information is true and correct to the best of its knowledge and belief, as of the date that Supplier completes this form. Customer acknowledges that Supplier may have relied on information provided by others in completing this form, and that Supplier may not have independently verified such information. However, in situations where Supplier has not independently verified information provided by others, Supplier agrees that, at a minimum, its suppliers have provided certifications regarding their contributions to the part, and those certifications are at least as comprehensive as the certification in this paragraph.
